Professional Summary

Computer Science graduate from BRAC University with a strong foundation in Artificial Intelligence, Machine Learning, and Software Engineering. Experienced in building end-to-end AI applications, deploying ML solutions, and conducting research on Large Language Models. Passionate about developing practical, scalable AI systems that solve real-world problems while continuously learning and contributing to impactful projects.

Skills

Languages: Python

AI/ML: PyTorch • TensorFlow • Scikit-learn • Hugging Face • Computer Vision • NLP • LLMs • Transfer Learning • Multimodal AI

Backend: FastAPI • Flask • Django • REST APIs • JWT

MLOps: MLflow • Docker • DVC • Git

Database: MySQL • MongoDB

Web: HTML • CSS

Projects

Multimodal Legal Risk Auditor

🐙 GitHub

- Developed a multimodal AI system for legal document analysis, clause detection, and automated risk assessment using Computer Vision and NLP.
- Built an end-to-end solution with PyTorch, FastAPI, Streamlit, MLflow, and Docker for production-ready document intelligence. [Learn More](#)

Chicken Disease Classification

🐙 GitHub 🌐 Live

- Developed an end-to-end deep learning application for automated chicken disease detection using VGG16 Transfer Learning.
- Built and deployed a TensorFlow solution with Flask, Docker, and DVC featuring an optimized inference pipeline. [Learn More](#)

Wine Quality Predictor

🐙 GitHub 🌐 Live

- Developed an end-to-end machine learning application for wine quality prediction with automated training and deployment.
- Implemented a modular ML pipeline using Scikit-learn, MLflow, Flask, and Docker with experiment tracking. [Learn More](#)

Education

BRAC University

2021 – 2025

Bachelor of Science in Computer Science and Engineering

Dhaka, Bangladesh

- **CGPA:** 3.31

Best Thesis Award (Summer 2025)

- **Thesis:** *Exploring the Limits of Pruning: Model Breakdown Analysis and Recovery In Large Language Models*

Leadership & Activities

BRAC University Computer Club (BUCC)

2024 – 2025

Assistant Director – Research & Development

Dhaka, Bangladesh

- Mentored members in backend development, machine learning, and competitive programming while organizing AI-focused workshops and technical events.

St. Joseph Higher Secondary School

2023

Workshop Facilitator – Artificial Intelligence

Dhaka, Bangladesh

- Conducted introductory workshops on Artificial Intelligence and Machine Learning fundamentals for students.
